

# BENEFITS OF GETTING A COVID-19 VACCINE

## PREVENT COVID-19 DISEASE

The COVID-19 vaccines prevent sickness, hospitalizations, and death due to COVID-19.

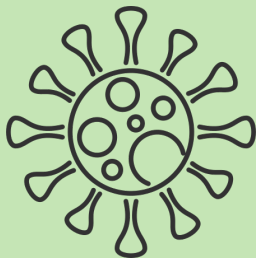

## HELP END THE PANDEMIC

If enough people get vaccinated, this will help end the pandemic.

## PROTECT YOURSELF FROM COVID-19 SAFELY

Getting vaccinated is the safest way to protect yourself from getting sick with COVID-19.

## PREVENT VIRAL RESISTANCE

Vaccines make it harder for the virus to spread, which can prevent new viral variants.
